WORK EXPERIENCE

Full-Stack Developer

Polotno Agency

May 2023 - Apr 2024

I worked with the **MERN stack (JavaScript, React, Node.js, MongoDB, Express)** on various projects, handling both front-end and back-end development.

- Developed dynamic web applications using React.
- Built RESTful APIs with Node.js and Express.
- Managed MongoDB databases.
- Translated UI/UX designs into functional interfaces.
- Delivered multiple client projects on time.
- Improved application performance by 30% through optimization.
- Created reusable components to streamline development.

Front-End Developer

Jordan Agency

Feb 2022 - Feb 2023

I worked as a Front-End Developer using a **stack of JavaScript, HTML, CSS, SASS, and Figma** to create engaging and responsive web interfaces.

- Developed user interfaces with HTML, CSS, and JavaScript.
- Used SASS for more efficient and maintainable CSS.
- Translated designs from Figma into functional web pages.
- Ensured cross-browser compatibility and responsive design.
- Collaborated with designers and back-end developers to implement features.
